REVIEWS

Working Stiff: Two Years, 262 Bodies and the Making of a Medical Examiner. Judy Melinek & T.J. Mitchell. Scribner Books, New York, August 2014.

"Haunting and illuminating...the stories from [Dr. Melinek's] average workdays should also transfix the reader with their demonstration that medical science can diagnose and console long after the heartbeat stops."

—New York Times

"In this engrossing tale of how Melinek became a forensic pathologist, she pulls back the sheet to show readers just what goes on after someone dies... Armchair detectives and would-be forensic pathologists will find Melinek's well-written account to be inspiring and engaging."

—Publishers Weekly

"Spellbinding. . . . Melinek is movingly empathetic toward the families of victims. . . . An unforgettable story."

—Booklist (starred review)

"Melinek's enthusiasm for her calling is always apparent, and her writing is un-self-consciously bouncy, absorbed and mordant (though not caustic).... A transfixing account of death, from the mundane to the oddly hair-raising."

—Kirkus Reviews
